

UNILEC

Company Profile 2013

Overview

Unilec is an electrical company that specialises in the automation of industrial production and distribution systems. We have expertise in assembly, storage, sortation, paint, oven, robotic, materials handling and baggage handling systems.

Established in 1999, we are based in Johannesburg South Africa and operate within South Africa and its neighbouring countries. We have also worked further afield, completing projects in Argentina and Germany. Our client list includes Alstom, BMW, Drysys, Exel, Fanuc, Ford, LGA, Mercedes Benz, Nissan, Savoye, Toyota and Van Der Lande Industries among others.

Services

We offer a range of services in the areas of consulting, project management, design, manufacturing, installation and support. Our services can be provided as an end-to-end solution for small or large scale projects or can be combined as required to meet the individual needs of our clients. All services are governed by industry standards and best practices.

Consulting			
Project Management			
Design	Manufacturing	Installation	Support
Process design	Low & medium voltage distribution boards	Control panels	Break-fix maintenance
Circuit design	Control panels	Electrical equipment	General maintenance
Panel design	Software development	Ducting, cabling and termination	Upgrading & refurbishing
Software design for PLC, PC & SCADA systems	Schematics	Commissioning	Training

Staff

We operate with a relatively small staff complement but have the necessary resources and relationships to accommodate almost any project. Our employees and company structure can be seen in the organogram on the adjacent page.

Value

We hold trusted relationships with all our clients, most of whom we have worked with since our inception. With more than 30 years of industry experience, our clients appreciate us for our depth and breadth of industry knowledge; our ability to understand their unique design requirements; consistently providing well engineered and managed projects; excellent workmanship and reliable service; our commitment to providing round the clock support.
